This month your
average daily
electric use was
425.0 kWh

This month you used
7.4% less
than at the
same time last year

News For You

Every January 1 and July 1, the purchase price of the energy we buy for you changes as demand for energy increases or decreases. We adjust the Standard Service rate to reflect this change - with no profit to the company. On January 1, 2021, residential rate 1 customers on Eversource's Standard Service using an average of 700 kilowatt-hours (kWh) of electricity per month, will see an increase of 4.8% or \$7.11 per month on the supply portion of the bill. This is a change from 7.375 to 8.391 cents per kWh. For more information on your bill, ways to save or programs to help, visit Eversource.com.

Remit Payment To: Eversource, PO Box 56002, Boston, MA 02205-6002

Explanation of your charges

*The Combined Public Benefits Charge represents a combination of three charges formerly know as: Conservation and Load Mgmt Charge, Renewable Energy Investment Charge, and Systems Benefits Charge. This charge also includes the Conservation Adjustment Mechanism approved by the Public Utilities Regulatory Authority in Docket No. 13-11-14.

**Effective January 1, 2007, the Generation Services Charge (GSC) and the Bypassable Federally Mandated Congestion Charge (BFMCC) have been combined into the "GSC Charge" listed in the Supplier Services section of your bill. The GSC reflects all of the cost of procuring energy from Eversource wholesale suppliers. The BFMCC portion of this line item is -\$0.00070 / kWh. If you multiply this BFMCC rate by the number of kWhs on your bill, you can calculate the dollar amount associated with the BFMCC.

***Electric System Improvements: Recovers company investments that protect, strengthen or modernize the electric grid.
