MONTHLY ENERGY REPORT

June 2023

ENERGY CONSUMPTION SUMMARY REPORT

Electric Usage Summary:

- Usage is down more than 10% at this facility:
 - a. WARE (-52.21%)
 - Much larger decrease monthly and annually.
 - Data like this often suggests a decrease in occupancy or use.

Overall Summary:

- Efficiency programs have definitely made an impact across NEIP's portfolio and we are seeing consumption numbers trending in the right direction.

Cost Summary:

- NEIP weathered the storm of higher electric rates from January to June of 2023. Overall the finances seem to be pretty good with a few exceptions and we would be happy to discuss.
